Instruction on the Use of QR Codes

I: QR Code Placement

The QR codes printed on the certificates of origin are placed differently for each form type, as illustrated below. In addition, the 32-digit QR code is printed below its barcode (and is placed in front of the barcode in the six-sheet certificate of origin).

III: Advantages of Using QR codes instead of Hologram Labels

- A. Saving the costs associated with printing and sending holograms to various branches of ICCIMA;
- B. Printing the security code (QR code) on all the pages of the certificate of origin, without any restrictions for certifications with more than a single page.
- C. Displaying the verification page for the issued certificate of origin after scanning the QR code on mobile devices without opening any webpage.

- D. Precluding any possibility of hologram counterfeiting as reported by some border branches.
- E. Enhanced access management for each chamber.
